GIANT HYBRID BLUEBERRIES

Best Investment of a Lifetime for Enjoyment and Profit
 Beautiful • Profitable • Ornamental • Last of a Lifetime

What a pleasure to pick these Giant, Luscious Blueberries, 2 to 3 times larger than common Blueberries. Start fruiting in July, continuing on to September. Berries hang on the bushes exceptionally well after maturity, making picking once a week often enough. Plants attain a height of 6 to 8 feet.

Tantalizing flavor—fresh, frozen, canned, spiced or in jams and jellies. A husband's favorite—Blueberry pie or Blueberry muffins made from fresh, large, juicy berries picked from your own plants. Enormous yield year after year; under normal conditions, full bearing plants will average 2000 to 3000 quarts per acre.

Beautiful ornamental Blueberry bushes are most attractive for hedges—heavy, dark green foliage turning coppery red in fall—decorative, pinkish, bell-shaped blossoms.

CROSS POLLENIZATION. Plant at least 2 plants (can be same variety), your assurance of more and better berries.

For pleasure and profit invest in Westhauser's Blueberries.

VARIETIES

Jersey, Rancocas, Rubel.

All Blueberries are packed in Westhauser's Gro-Kwick. For additional Gro-Kwick, see page 2.

The Best for The Least with Westhauser's Preconditioned Plants

OUR AIDS in Attaining This Goal are:

● **MODERN PACKING HOUSE.** Your preconditioned plants are freshly dug, precooled in our spacious cooler, one of the many modern facilities at Westhauser's. These precooled plants are then shipped direct to you. Preconditioning plants is your assurance of plants arriving in an A-1 condition—fresher, more dormant, better producers.

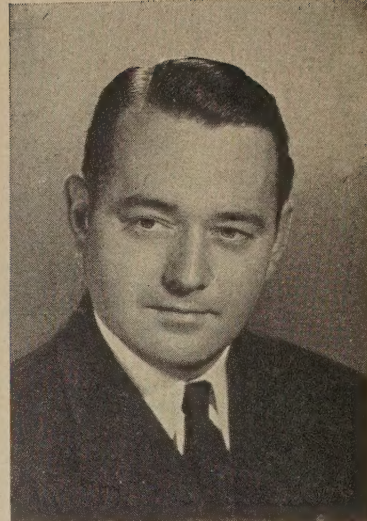

● **UP-TO-THE-MINUTE FARM EQUIPMENT.** Assures you of getting only the finest fully matured plants. We are able to get our crops in the soil at proper planting time, giving them a lengthy growing season in which to mature fully.

● **IRRIGATION SYSTEM.** With our large scale irrigation system we are (even in drought season), always able to produce Healthy, Extra Heavy Rooted, Quality Stock for you.

● **COMPLETE FERTILIZATION.** We maintain a large herd of stock in order to keep our producing soils in the highest state of fertility.

● **HARDY NORTHERN CLIMATE.** Our northern climate in the great Michigan Fruit Belt is ideal for growing thrifty, hardy nursery stock, being located so near Lake Michigan, which puts a damper on our winters, making the climate such that our nursery stock is practically dormant until late in spring. Bear in mind, Mr. Fruit Grower, plants that are dormant so late in the season have little foliage and carry well in transit, that is one of the reasons why our plants can be shipped long distances with the best of results.

● **CROP ROTATION** gives you the best at no extra cost. Healthy, sturdy, northern grown nursery stock is the result of our years ahead plan with definite crop rotation.

Here's How to Insure Vigorous, Healthy Growth for All of Your Plants

GRO-KWICK Nitro-Organic Humus (Acid Peat). Taken from a drained lake bed of clean, odorless, highly vitalized, decomposed pure vegetation; consists of humus, nitrogen, phosphate and other minerals. Holds 15 to 20 times its own weight of water. Has never been touched by man; in all probability this deposit has been collecting for thousands of years. Ideal for Blueberries, Evergreens; in fact, all acid-loving plants. Prices: 1 bag (2 bus.), \$1.50; 2 bags (4 bus.), \$2.75; 5 bags (10 bus.), \$6.25; 10 bags (20 bus.), \$11.00. Net, No Discount.

SOIL KING (Non-Acid Peat). Nature's own plant and soil rejuvenator. A full fertilizer, absorbs 15 to 20 times its own weight of water. Excellent for lawns, and all other non-acid loving plants. Prices: 1 bag (2 bus.), \$1.60; 2 bags (4 bus.), \$3.00; 5 bags (10 bus.), \$6.50; 10 bags (20 bus.), \$12.00. Net, No Discount.

Weight: 1 bag (2 bus.) is approximately 50 to 75 lbs. Have it shipped early by freight and save on transportation. Because of the uncertainty of freight we will not ship this way after March 15th, unless so requested by customer; later we ship by express. Call your agent to ascertain rate to your destination.

VITAMIN B₁

Vitamin B₁ reduces the shock of transplanting.

HOW TO USE IT: Dissolve 1 tablet in a gallon of water, sprinkle plants immediately after transplanting. In case plants, shrubs or trees are already planted, soak soil around the roots with solution. Dormant or bare-rooted plants should be soaked in solution not less than one-half hour or more than one hour before planting. Endorsed by leading agricultural and horticultural papers. Prices: 12 tablets for 25c; 50 for 65c; 100 for \$1.00, postpaid. No Discount.

Minnesota 1166

(Evermore)

Improved Heavy Producing Strain

A comparatively new everbearer that is rapidly replacing older varieties. Proven by test to be hardy, sturdy and fruitful even under adverse conditions. Berries have a good flavor, bear 60 to 90 days after planting, continuing until snow flies, followed by a fine crop the following year.

The giant conical shaped berries are very showy, bright red to the heart. Fine for home use. Firm, excellent shippers. Bring top prices. Makes heavy fruiting row. Being such a good plant maker, we suggest you space it a little farther apart than the ordinary everbearer, say about 18 to 24 inches. (See yellow block below for prices.)

GEM

The Crimson Everbearer

Still a great favorite after being with us for over 12 years. Seems to have justified the praise of commercial growers, as it is a heavy producer in fall when Strawberries are in the luxury class, and it produces an unusually good crop in spring also. **Flavor:** Berries have a good flavor, and very fine-grained texture. **Foliage:** Makes quite a few plants. Very hardy and not subject to leaf blight. **Showy:** On account of the scarlet-red color it is very showy. **Firmness:** Excellent shipper. (See yellow block below for prices.)

Superfection

For perfect satisfaction plant SUPERFECTION. No other everbearer can offer you more. Plant early, have fresh fruit from June until snow flies. We can't begin to tell you of all the fine qualities of Superfection. The large round berries are bright red all the way through. The tempting, sweet, mellow flavor is delicious fresh, canned, or in jams and jellies. Put some in your freezer for that extra special treat this winter. Berries are firm, excellent for shipping—no softening, no discoloring—heavy producer. Plants are very sturdy, quickly adapt themselves to any soil; free plant maker, always a good picking row. This new variety was originated in the north central part of Michigan and threatens to take the place of many of the old standby everbearers. Once you have tried SUPERFECTION, we are sure you will share our enthusiasm for this fine berry. **Please order promptly.** The supply is very limited, and we do want you to try this new everbearer this year. (See yellow block page 4 for prices.)

Superfection

During our digging season every spring—at the end of each day there are a few plants of all varieties left—these are classed as Surplus plants. We are offering them at a great savings. All plants are first class, fresh dug and will bear you a fine crop. However, none are labeled—they are mixed varieties—sold in lots of not less than 250.

POLLENIZATION

All varieties of Westhauser's Strawberries are self-pollenizing. However, the smart grower will order a varied assortment and prolong his berry season.

MASTODON

*The Reliable
Everbearer*

The old, old standby, with us for over 25 years. By special precaution and careful selection, we have one of the most select strains of Mastodon that you can secure, excelled by none no matter what price you pay. A most popular fall-bearing Strawberry—rich full flavor; very good texture; stands up well after picking. Excellent plant maker, sets a good row to support the attractive large, glossy, deep red berries. Truly a delight to pick. Makes adaptation to any type of soil. (See yellow block page 4 for prices.)

Mastodon

BRUNE'S MARVEL

(Non-Acid)

This unusually sweet, non-acid everbearing Strawberry requires no sugar, and can be eaten by those who are affected with rash by other Strawberries. The glittering red berries are almost seedless. Brune's Marvel is a thrifty plant maker, always assured of a good picking row. (See yellow block page 4 for prices.)

More and More People Demand These LUSCIOUS BEAUTIES

CATSKILL

The nation's No. 1 midseason berry. Plants vigorous, healthy and very productive. Often outbears Premier. Not only is the yield greater than most leading varieties, but it produces a larger quantity of big berries. These solid, light red berries with their fresh green caps are most attractive and very showy in the packages. Excellent shipper. Good flavor. Sells well. (See prices in yellow block page 7.)

DUNLAP

The old favorite. Dependable midseason to late, berries medium to large, conical and often slightly necked, dark crimson, with deep red flesh; quality very good. The plants are healthy and vigorous, very productive, grow on all types of soil and in extremely cold climates. One of the best canning varieties. It can be shipped to far distant markets. Holds up for a long time after picking. Comes into bearing a few days after Premier. (Prices in yellow block page 7.)

PREMIER

A standard variety that has stood the test for over 20 years. Premier produces and gets on the market early when there is a good demand and practically no Strawberry competition. This alone makes it a prize money maker. The berries are large, beautiful red, very firm, fine texture and flavor. It holds its size to the last of the season. Premier is an all-purpose Strawberry—excellent for freezing, canning, eating fresh, also local and long distance hauling. The plants are very productive, sturdy, long-rooted, good drought resisters and make a good fruiting row on any kind of soil. (See prices yellow block page 7.)

FAIRLAND

Fairland (USDA 3205) just recently released for introduction by U. S. Dept. of Agriculture, is outstanding in so many fine respects. Its paramount feature being **disease resistance**. Healthy, vigorous grower. Heavy dark green foliage protects the flowers borne on short stalks making it **frost resistant**, too. Equals Premier in productiveness. Medium to large, bright red berries have a glossy finish. Ripens uniformly—a few days earlier than Premier, and are somewhat firmer. Flavor slightly tart. One of the finest for fresh freezing. (See yellow block page 7 for prices.)

Giant Size

ROBINSON

Nature's greatest contribution to the Strawberry Industry. Introduced right here in the **Heart of the Fruit Belt**. Ripens early—few days after Premier. Nutritious! Delicious! Juicy, sweet flavor, unsurpassed fresh—canned or fresh frozen. No doubt about it! It's the fanciest and most attractive berry on the market. **The buyer's delight.** A scarlet beauty, uniform giant in size, conical shaped. **The grower's pride and joy.** Thrifty plant maker. Abundant cropper. Long fruiting period, holding its size to last picking. **Increase your profits—plant Robinsons.** (Prices page 7.)

New **TEMPLE** Strawberry

A splendid new variety, with a host of good qualities. One of the first to ripen, hence **early cash profits**. Not choosy about the soil, grows on practically any type, even does well on moist, poorly drained soil, and is equally successful on higher upland soils. Home gardeners will welcome this fine, easy to grow variety. Excellent fresh or canned. Put some in the deep freeze for that quick dessert with a taste appeal. Temple is definitely a good commercial berry. Ranks among the first in productiveness. Solid enough for long distance shipping. The attractive appearance of this medium to large, early, bright red berry **brings top prices**. Unlike many fine producers it is not lacking in flavor; in fact, it is tops in flavor and quality. Exceptionally vigorous grower, frost resistant, makes plants freely, suggest you space it 18 to 24 inches apart in the row. **Don't wait—order now.** (Prices in yellow block to your right.)

**Good Fresh—
Frozen—
Preserved!**

GRAND CHAMPION

All its name implies. Truly a "Champ." Bears over 40 days. Rich color. No finer quality at any price. It's an exclusive Westhauser introduction—well deserving of its ever-increasing popularity. The extra large, bright, rich red berries are unusually attractive. Really in a class by themselves for flavor, fresh or preserved. They retain their shape and flavor in the can. They are coreless. Put some in your deep freeze so you can enjoy their delightful goodness long after the season is past. Crop failure on account of frost practically impossible, as the tall mass of foliage protects the blossoms from late freezes. **Heavy producer.** Think of it! During harvesting we picked over 1920 quarts from one-seventh of an acre; the equivalent of 13,400 quarts per acre. Suggest you try some this year. You will be amazed at this wonderful berry. (See prices in yellow block just below.)

GREAT MASTER

A Late Money Maker

Prolong your fruiting season with Great Master. Get top prices for these fancy berries when others are gone. After watching this berry and putting it to the most rigid tests, we were amazed to find Great Master, a seedling discovered fruiting years ago, has really exceeded our fondest hopes. It is a large, real firm, fancy, glossy berry with a superb flavor of its own, outbears other spring berries two to one. The plants are large and thrifty, making many runners, but spacing their plants far enough apart to insure large size berries. They ripen about 3 weeks after Premier, and mature every berry to full size. Plant **GREAT MASTER** now and be the first in your locality to grow this outstanding wonder berry. Famous The World Over*

Thornless Boysenberry and Dewberry Cultural Instructions

Set plants 8 by 8 feet in and between rows. Let the vines creep on the ground the first year. To be safe, cover the plants with straw, leaves or soil before heavy frosts. When the buds appear, tie the vines to the wire or trellis about 2½ feet above the ground. After fruiting, cut old vines or canes to the ground, remove and burn, allow the young shoots to remain on the ground as in the beginning, repeat the practice every year.

TARTARIAN HONEYSUCKLE

Finest and best known of the Bush Honey-suckles. Somewhat spreading branches, with bright green foliage. The flowers are bright pink followed by red berries that cling to the bushes for several months. Prices: 10-15 in., 50c each; 3 for \$1.25; 6 for \$2.25.

FLOWERING ALMOND

Early spring flowering shrub, in full bloom before the leaves appear. Growth is dwarf and bushy, compact, with slender branches. Very good used in grouping or for lawn. Multitudes of tiny rose-shaped flowers are in wreath form. Prices: 18-24 in., 75c each; 3 for \$2.00.

WESTHAUSER NURSERIES

Ruby Everbearer

Super RASPBERRIES

RUBY Everbearer

This new brilliant ruby-red Raspberry was found in the cold climate of Northern Minnesota. We have tested and fruited it for some time and find it has the qualifications of an outstanding everbearer. Once it is in production there is not a week during fruiting season that it does not have ripe berries which last until heavy frosts. This wonderful berry starts producing about the same time as Latham. Imagine! Luscious, tantalizing berries all season. The plants are very hardy, heavy producers—easy to grow. Berries are brilliant ruby-red, firm with excellent keeping qualities. Flavor unexcelled. An all-around berry fresh frozen, canned, or in jams and jellies, and delicious eating from the bush. Only at Westhauser's can you secure this outstanding Red Raspberry.

PRICES: 1-yr., No. 1 plants, \$1.50 each; 3 for \$4.00; 6 for \$7.25; 12 for \$13.50.

Early Wonder

New "EARLY WONDER"

(Trade Marked and Patented)

Another Westhauser exclusive for those who want the best. Don't confuse Thornless Early Wonder with common varieties. It is definitely a marvelous berry—Early! Thornless! Rich Pleasing Flavor Too! Very productive. Ripening ten days to two weeks earlier than Latham, together with the attractive appearance of those immense, beautiful bright red berries makes it a best seller. Long fruiting season. Very firm. Excellent shippers. Flavor is a delicacy fresh, canned, preserved or fresh frozen. The large sturdy plants have silky smooth wood—no stickers—a labor saver for the commercial grower—so easy for the home gardener to handle. Originated here in the heart of the Fruit Belt. It has withstood every test. Always a sellout. Supply still limited. Order now!

PRICES: Fruiting size, 75c each; 3 for \$2.10; 6 for \$4.00. Giant plants, \$1.00 each; 3 for \$2.75; 6 for \$5.00.

BLACKBERRIES

Your OUTSTANDING Favorites!

ELDORADO. Best late Blackberry. Satisfies both home and commercial grower. Bears young, producing almost a full crop first year after planting. Sparkling jet-black berries are large, sweet, uniform in size and are practically coreless; do not turn red after picking. Hardy, vigorous, disease-resistant, regular heavy producers. Fruits over long season, your assurance of big profits.

ALFRED. The practically coreless Blackberry, originated in Michigan, the state that produces fruit with the flavor. The color is glossy jet-black, the flavor sweet and delicious, and it is nearly seedless and coreless. A hardy plant that produces mammoth berries, often 1 3/4 in. long. It does equally well in cold sections. Why not include a few in your order and get started raising this profitable berry?

A Letter From One of
Many Satisfied Customers

Mrs. Palmer of Oregon writes:
It's been about 3 weeks since we
received shipment of our large
berry plant order, and we want
you to know just how really satis-
fied we are. We have put out lots
of nursery stock, but I don't be-
lieve we ever received plants in
better shape and such vigor. They
are all growing grand. Your idea
of shipping really brought the
plants this long distance in A-1
shape.

INDIAN SUMMER

Giant Everbearing • 2 Crops in 1 Year

When partaking of some choice, deliciously flavored fruit have you not often wished it would last longer? Indian Summer is your berry. It is one of the first to ripen, bearing a full crop in June—another immense crop in fall. The berries are mammoth, conical shaped with small cavity, deep red color and highly flavored. The plants are hardy, tall and thrifty, require little care. In production, will equal and outbear other Red Raspberries. Delicious fresh. Put some in your locker or deep freeze so you can have them fresh all winter. Can some for those unexpected guests, it will be a treat to them, and a dessert worry off your mind. Attention commercial growers! Indian Summers are good shippers. Get premium prices for Raspberries out of season. Double bearing—double profit. (See prices in the yellow block, page 11.)

\$ \$ \$ **LATHAM** \$ \$ \$

The Most Profitable Red Raspberry

Latham is the leading medium to late commercial variety. For extra value plant Westhauser's dependable proven strain. Home gardeners everywhere are delighted with the fine qualities of Latham. It thrives on all well-drained soil, produces heavily in all localities. It's very hardy, does not winter-kill, even at 45 degrees

below zero. Berries are large, plump and sweet. It is not uncommon for them to measure an inch in diameter. Color is a beautiful rich dark red. Carries well in shipping. The rich coloring of these firm, fancy berries makes such an attractive package, buyers are so eager to get them they often pay as much as 50c more per crate. Folks, there is nothing more delicious than Raspberries fresh from your own garden. Saves on the food budget too, sell the surplus to your friends and neighbors. For pies, shortcake, sauce, jam, freezing and fresh juice they are delicious. Include Latham in your planting this year. (See prices in yellow block page 11.)

JUMBO — MORRISON ELEPHANT SIZE

12 Plants for Only \$1.80

You will be attracted, as was the originator, by all of the unusually fine qualities of this outstanding blackcap . . . the mammoth sized berries . . . glistening jet black color . . . rich flavor . . . so few seeds . . . heavy producer. Berries, even larger than Cumberland, measuring up to an inch in diameter, hold their size to the last picking. The thrifty, strong, hardy plants are heavy rooted and disease-resistant. Easy to grow, will thrive on any well-drained soil. Especially excellent for canning, jam and juice, as well as fresh and fresh frozen. The trend of the market is very active and the supply limited. Just a little hint to order early and avoid disappointment.

The New LOGAN

Prolong your fruiting season—increase your profits with LOGAN. Unquestionably the finest early Blackcap. Berries are deliciously sweet flavored—firm, uniform, large, glossy black, ripening about 10 days earlier than Cumberland. Bears heavily. Gives the grower a chance to make some real money. Particularly liked by home gardener and commercial grower for its drought and disease resistant characteristics. We have a thrifty lot of well-rooted plants. Include some of these fine plants in your order today.

CUMBERLAND

Dependable High Quality

The leading commercial Blackcap. Get the most for your money, plant Westhauser's hardy, heavy producing Cumberland, one of the foremost, most dependable of all Blackcaps. Does exceptionally well in all climates. Produces biggest cash crops. Buyers pay top prices for this beautiful, most attractive, large jet-black Raspberry. The seeds are comparatively small, and their luscious, sweet, rich, tempting flavor make them a favorite to eat fresh or canned. Delicious fresh frozen. Will grow and thrive excellently on any kind of soil. It is the firmest of all blackcaps, does not crumble, holds its size to the end better than any of the Raspberries of today. (See yellow block just above for prices.)

Fredonia

Caco

Most Favored Varieties of GRAPES

FREDONIA - A Leader

A winner. This new variety threatens to displace all other black Grapes. A new, very early Grape, originated and thoroughly tested by the New York Experiment Station. The clusters and berries are large, with excellent flavor. Ripens fully 10 days before Moore's Early and is an excellent shipper, as it does not crack. This Grape fills a long-felt need—a juicy, delicious black Grape that ripens early. Vine vigorous and productive. One of the best new varieties. (See blue block below for prices.)

CACO - The Best Red

This variety is considered the best and hardiest amber-red ever produced, the bunches being very large and the berries comparable to the new Fredonia. In quality Caco ranks among the best of the native Grapes, approaching in flavor European Muscat rather than the foxiness of native Grapes. (Prices in blue block below.)

CONCORD - The Reliable

Most popular Grape for eating, table use, wines, jams, jellies and commercial. Grows on all kinds of soil, and produces large crops. The bunches are large, compact and well-shaped; berries are dark blue and very juicy. Plants are exceptionally hardy. Fruits in October. Here in the heart of the Fruit Belt thousands of truck loads are shipped annually. Order now. Stock is short. (See prices in blue block below.)

NIAGARA White

The leading commercial White Grape. The compact bunches of large, fine flavored, juicy berries are in big demand for table and wine. Very productive and hardy. Ripens about the same time as Concord. (See blue block below for prices.)

DELAWARE

Berries are compactly set, light red, sugary and delicious. A favorite dessert Grape, and among the very best red varieties, sweet, tender and juicy. Good keepers and shippers. (For prices see blue block below.)

GOLDEN MUSCAT

This new hardy, California-type Grape can be grown in every section of the country. Berries are large, sweet and meaty. Ideal for home use and roadside stands. Compact bunches are large, heavy, broad shouldered, and tapering. Very productive. Like a fertile soil. (See prices below in blue block.)

Golden Muscat

SKINLESS SENECA

Just a nice tender munch, and a sweet, juicy crunch; no skins to worry about—that's Seneca Skinless Grape. It is the newest of the hardy California-type Grapes, and has this important quality of edible skin. Flavor sweet, melting, delicious; vine vigorous and productive; bunches well filled and attractive. Prices: \$1.00 each; 3 for \$2.75.

SEEDLESS CONCORD

After years of experimentation and cross-breeding a perfectly hardy, seedless Grape has been developed. The first of a new race of Grapes that should eventually replace the common large seeded varieties for table use. It is the Concord type, but slightly smaller, blue-black in color and possesses the same fine flavor found in the Concord Grape. Prices: \$1.00 each; 3 for \$2.75.

RED LAKE CURRANTS

Outbears others two to one. Double your crop and profits by raising these big, very productive Currants. Bushes thrifty and exceptionally hardy, easy to grow. The berries are dark red in color; being borne on long, well-filled bunches are a pleasure to pick. Originated in the Northwest where the temperature goes 40 degrees below zero. They ripen in early midseason and last over a long period. Prices: 2-yr., No. 1 plants, 65c each; 3 for \$1.80; 10 for \$5.50; 25 for \$10.50.

MARY WASHINGTON ASPARAGUS

First Green Vegetable of the Season. Vitamin rich—so delicious, so nutritious. The leading variety for home and market. It is rust-resistant, producing crisp, green, compact stalks, often measuring up to an inch in diameter. First cash crop in spring. Fancy stalks for the stores and market. The No. 2 grade for canning factories. Fresh Frozen Food Companies have created a large demand for Asparagus. Get started this year with this "full of vitamin", green. Planting lasts 20 years or more. 5000 roots will plant an acre. (Prices in block below.)

ALL RED McDONALD RHUBARB

Strawberry-red. The last word in Rhubarb. Prof. L. G. Bunting of the MacDonald College in Quebec, Canada, where it was originated, says: "It is very highly colored, a dazzling attractive red stalk, of large size, productive, very tender and succulent, and of excellent quality; particularly valuable for pies and desserts." Its color, when cooked without peeling, is as attractive as that of Raspberries. Not grown from seed. Plants propagated by division. Try some this year. You will like it. Prices: \$1.00 each; 3 for \$2.00; 6 for \$3.75; 10 for \$6.00.

SUPER-SIZE TREES

REDHAVEN

Earliest. Dazzling all-red. Self-pollenizing. Ripens 3 weeks before Elberta. A sure hit and big moneymaker. Fruit is fine grained, medium size, freestone, smooth skin, rich in flavor, sweet and juicy. Excellent shipper.

HALE-HAVEN

Large! Early! Freestone! Extremely high color. Colors few days before it is ripe on the trees; can be picked reasonably green for long distance shipping. Flesh yellow, juicy. Mild pleasing flavor. One of the best canning Peaches.

FAIRHAVEN

A cross between J. H. Hale and South Haven. Ripens about a week before Hale-Haven. Trees are vigorous and very productive. Have the same fruiting tendencies of the Hale-Haven. Fruit medium large size. Color—bright golden yellow with red cheek. Skin smooth, fruit firm, excellent for shipping. Flesh medium yellow with moderate red color to pit. Flavor extra good.

SOUTH HAVEN

Golden yellow with a red cheek. Good juicy flavor. Wonderful canner and shipper.

ELBERTA

(Midseason)

The standard of all Peaches. Outstanding the country over for both commercial and garden purposes. Very large. Yellow with red blush cheek. Highly flavored, and very juicy. Hardy, vigorous grower, does well in all Peach-growing sections. Ripens fore part of September.

J. H. HALE

Very showy, one of the largest Peaches grown. Deep golden yellow with red blush, smooth skin. Superior flavor! Finest quality! For perfect pollenization plant with Elberta. Ripens about 5 days earlier than Elberta.

Blooming on One Plant!

LOOK! WHAT BEAUTIES! Feast your eyes on Those Magnificent Colors! Blossoms! Blossoms! Everywhere! Unless you have seen these gorgeous, dwarf, Azalea-type Mums, you cannot visualize their beauty; **one plant** a flower garden in itself, 500 to 1000 blooms the first year, many more the next. How invigorating on chilly fall days—with summer blossoms gone—to have these autumn queens impart to us the gifts of each season—all the freshness of spring through the deep golden yellow—the bloom and glow of summer found in the pure snowy white, and lovely rose-pink—and all the wealth of autumn colors intensified in the brick-red and outstanding bronze. Friends and neighbors will exclaim in awe at the warmth of color that dazzles the eyes. A pleasure to care for. These plants are extremely hardy, attaining a height of 1½ to 2 feet. Last almost a lifetime. Grow well on all types of soil.

PRICES: 40c each; 4 for \$1.35; 8 for \$2.50; 12 for \$3.50; 25 for \$7.00. Net, no discount.

DAISIES

"HE LOVES ME"

GIANT EDGEBROOK

Newest of Shasta Daisies, 5 to 8 Inches Across, Practically Everblooming—Loads of Blooms from Early July Until Snow Flies.

This stately flower appears to have been touched by a magic wand and mysteriously enlarged to two or three times the size of an ordinary Daisy. The large blooms with white petals overlapping around a deep golden center, appear as glimmering snow around a piece of gold. Much sought after by florists as cut flowers for bouquets, floral pieces and general decorative work. Very sturdy plants with dark, rich green foliage, and sturdy stems. Prices: Healthy, heavy-rooted, 2-yr., field-grown plants, \$1.00 each; 3 for \$2.75.

DECORATION DAY DAISY

Double White Swan

Velvety large blooms, pure white like new fallen snow, for Decoration Day, continuing throughout June. Double Daisy is a beautiful, delicate, soothing white with a brilliant yellow disc center. Easily grown and hardy anywhere. Flowers grow to a height of 24 to 30 inches. Cut flowers will keep from two to three weeks in a vase. Gorgeous bouquets over a long season. Used also as a contrast with other flowers such as red and blue. Flower lover's delight. Prices: 35c each; 2 for 65c; 4 for \$1.20; 6 for \$1.80.

Painted Daisy

PAINTED DAISY

Large, compact, beautiful Daisies. Hardy and easy to grow, will thrive on all soils. Gorgeous assorted colors on long, erect stems. The fernlike foliage and brilliant shadings make them very desirable for cutting. Long season of blooms for bouquets. Grows about 2½ feet tall. Prices: 30c each; 2 for 55c; 5 for \$1.20; 10 for \$2.00.

Leading the HARDY ASTERS

Blue Skylark

HARDY FALL ASTERS

The rich coloring of these magnificent Asters will surely thrill you when they burst out all over with thousands of blooms to add glory to your fall flowers from late August through November. The plants range from 1 to 3½ feet in height. Wherever planted the effect of Asters is most charming, as they blend with the landscape, yet are very much in evidence. For variety in color and height we offer:

SUNSET

Medium in height, ranging from 1½ to 2½ ft. Glorious sunset-pink with blooms so thickly covering the branches it appears as the sun itself going down behind the horizon. One of the best new pink varieties.

BLUE SKYLARK

Grows 2½ to 3½ ft., making it an ideal setting for a background or border planting. Very outstanding with its sky-blue thick petals and yellow disc centers.

VICTOR

Dwarfest of all, growing 6 inches to 1½ feet, but still loaded with good sized flowers of beautiful clear lavender-blue.

Prices Hardy Asters: 35c each; 3 for 90c; 6 for \$1.70.

Sunset Aster

CREEPING PHLOX

Cherished as much for its refreshing evergreen foliage as for its masses of flowers that appear in April and early May. Colors: Snowy white, and rosy-pink. One of the most beautiful of the low creeping plants is Phlox Subulata. It is a diminutive spreading plant 2 to 6 inches high, that thrives in places where no other plants seem to do well. Ideal for borders, rock gardens and terraces. Plant 1 foot apart each way to make a dense ground cover in short time. Prices: 2-yr. plants, 35c each; 4 for \$1.00; 12 for \$2.50.

SEDUM - Stonecrop

A ground covering for dry infertile soil. Fill crevices and rock strewn areas. Succeeds in almost any position—on made rock work walls or ruins, in mixed borders. Dark green creeping compact mats. Handsome flat heads of white to pink flowers in midsummer. Prices: 25c each; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Beauty Screens

SILVER LACE

America's No. 1 vine for covering pergolas, archways, arbors, lattice, fences, etc. It is graceful, hardy and easy to grow. Will grow 25 feet or more in a season, and a fully developed specimen is a cloud of misty white, with tints of yellow and pale rose suggesting old lace. Gives a most exquisite effect and is one of the most satisfactory vines. Prices: 65c each; 3 for \$1.60.

Silver Lace Vine

CREEPING MYRTLE

(Vinca Minor)

Shining evergreen leaves and attractive violet-blue flowers in spring. Very hardy. An ideal ground cover, especially for shady places. Prices: 25c each; 5 for \$1.00; 10 for \$1.70.

PACHYSANDRA

(Japanese Spurge)

Low, dense growing. One of the most useful evergreen ground cover plants. Easy to grow, thrives well in shady places, and under trees. Ideal for terrace banks, or any place where it is difficult to grow grass. Terminal spikes of white flowers that open early in spring are attractive to bees. Fruit (not often seen) is a soft white berry. Prices: 2-yr., large, 45c each; 5 for \$2.00; 10 for \$3.50.

English Ivy

ENGLISH IVY

Native of Europe, these self-branching vines are extremely pretty for the home porch box or hanging basket. Rapid growing plants, easily cared for, not a bit fussy about the soil. Very decorative in the home. Prices: 50c each; 2 for 90c; 4 for \$1.60; 6 for \$2.50.

CLEMATIS

Large flowering hybrids—rich in charm and color. Nature's own drapery lends grace and enchantment to any planting. The richly colored, delightfully fragrant flowers with their pleasing foliage make Clematis a favorite for adorning pergolas, trellises and fences. Its decorative possibilities are unlimited. Use it to cover sunny porches or to enliven that old tree stump. Blooms profusely early summer to late autumn. Ideal cut flowers. Three outstanding varieties: 1—Jackmani, giant purple; 2—Henryi, lustrous white; 3—Andre, soft velvety red. Why not get some of each? 2-yr., No. 1, field-grown, blooming-size, \$1.25 each; 3 (1 each), \$3.00.

WASHINGTON HAWTHORN

A Four Season Shrub-Like Tree

This unique tree is truly a year-around beauty.

Hawthorn

Spring
Summer
Fall
Winter

June blooming brings forth dense clusters of creamy white flowers, which make it an excellent lawn specimen.

It is admired for its deciduous dense, narrow, glossy green foliage. Its shapely form renders it useful as a hedge.

Foliage turns to rich orange and red hues, so deeply characterizing the season.

The charm of this lovely shrub lies in its brilliant red berries lasting through the winter. Just picture the splendor of this lovely bush heavily loaded with brilliant bright red berries against a background of newly fallen snow and an azure-blue sky. A real feeding spot for birds such as Cardinals, Cedar Wax Wings and many others who love the juicy red berries. Very hardy; attains height of 15 to 25 feet, easy to transplant, disease resistant, good root system. Prices: 18-24 in., \$1.00 each; 3 for \$2.75; 6 for \$5.00. 3 to 4 ft., \$1.75 each; 3 for \$3.75; 6 for \$6.25.

DOGWOOD

One of the most beautiful of small trees. Handsome in early spring with its four blunt ended bracts surrounding the dense heads of small flowers, borne in such abundant profusion. Then again in fall with its showy scarlet berries produced in small clusters. Gorgeous leaf coloring—deep green in spring and summer; glorious scarlet-red in autumn. The spreading branches grow horizontally and slightly upward. Does well in partial shade or full sun.

Two Hardy Varieties: Cornus Florida, white flowering; and Cornus Rubra, pink or red flowering. Plant one or more of each for a spectacular display of color. Prices: Red, 2-3 ft., \$2.50 each; 2 for \$4.75. White, 2-3 ft., \$2.00 each; 2 for \$3.75. (Balled and Burlapped.)

SMOKE TREE (Purple Fringe)

An enchanting treelike shrub, enveloped in midsummer with showy masses of purplish misty flowers resembling beautiful clouds of drifting smoke. Attractive brilliant scarlet and golden autumn foliage. A hardy recognized garden beauty. Prices: 18-24 in., \$1.25 each; 3 for \$3.25; 6 for \$6.00. 24-36 in., \$1.50 each; 3 for \$3.95.

Improved Bechtel's Double Flowering Crab

This picturesque beauty will lend distinction to your lawn or flower garden. A particularly showy specimen—just like a huge bouquet during May and June, when the branches are heavily laden with fragrant, large, delicate pink, double flowers resembling miniature Roses in form. Its round buds and great profusion of bloom year after year has endeared this small bushy tree in the hearts of everyone in America. Foliage is shallowly lobed and always attractive. Prices: 2-3 ft., \$1.75 each; 3 for \$4.75; 6 for \$8.00.

HOPA FLOWERING CRAB

Hopa is undoubtedly the most beautiful Flowering Crab that can be grown in the North successfully. It is an upright tree entirely covered with beautiful rose-crimson flowers which last a long time, followed by fruit that has a bright red flesh which makes it doubly desirable for preserves as well as an ornament, fruit lingers on until fall. Tree is very hardy and disease free. Outstanding sensation for single or group planting. Prices: 4-5 ft., \$1.75 each; 3 for \$4.75; 6 for \$8.00. 5-7 ft., \$2.25 each; 3 for \$6.00; 6 for \$11.00.
